KCVN To Hold Record Sale

KCVN is having a huge record sale on Thursday, May 17, in Studio "A" from 11 a.m. till 5 p.m. KCVN has a valuable collection of 78's which will be auctioned off to bidders, with the starting price being only 5c. From 5c on, the price is up to the bidders.

This is an opportunity for record enthusiasts. The records are far too numerous to list here, but a handful of records among many shelves of 78's are numbers by Glenn Miller, Artie Shaw, Harry James, Benny Goodman, and Jimmy and Tommy Dorsey.

Some of the artists are Frank Sinatra, Sarah Vaughn, Helen O'Connell, Mel Torme, Bing Crosby, Perry Como. There's hardly an artist or band that isn't included in this collection.

Some of the older records are increasing in value as time goes on and will be a valuable asset to record collectors of "oldies." Also, many of the records are of interest to newer record collectors because of the interesting contrast in the development of various artists. This is a chance for music lovers to get high values at a low price. These records are yours for the bidding, and KCVN cordially invites students, faculty, friends, relatives and neighbors to attend and take part in the sale of 78 rpm records on Thursday, May 17, in Studio "A" from 11 a.m. till 5 p.m.

College of Pacific Engineers Hold Banquet May 12

On Saturday evening, May 12, the College of the Pacific Department of Engineering will hold its annual banquet honoring graduating students. Customarily, at this season of the year, engineering students, alumni, faculty and friends convene to discuss the past and future of engineering at the College of the Pacific.

The banquet this year will combine the honor due to the graduates with a celebration of a new engineering building and the latest of scientific equipment and laboratories.

Dr. Felix A. Wallace, chairman of the engineering department, predicts an appreciable increase in enrollment along with a pronounced higher degree of selectivity in the acceptance of students.

FUTURE

Of course, students, faculty, and alumni of the engineering department are looking forward to the future of engineering as a recognizable school of engineering within the College of the Pacific family.

This year, graduating students have received numerous offers of employment with salaries ranging from \$464 to \$575 per month.

Tiger Nine End Season; Bossert Leads Hitting

The College of the Pacific baseball team closed out their 1956 season last Saturday. They were slated to play Nevada and Parks Air Force Base that week end but bad weather cancelled the games.

The Tiger horse hidlers had a far better season this year than last. Last year they almost won the collegiate championship for the most games lost, with a record of 36 losses. This season under Skip Rowland they won six, lost fourteen and three games were cancelled. This is quite an improvement over last year's record and with only one graduating senior on the squad they should have a pretty fair team next spring.

Jim Collins is the only man that is graduating, so we feel that we should say something about big Jim's help to the team. Jim has pitched for the Tigers for three seasons besides playing tackle on the football team. Last year Jim was the only pitcher who was able to go the whole campaign without an injury of some type. He was always ready to pitch when called upon and was on call to relieve when needed. Besides his pitching Jim also was a good hitter. Our thanks go out to Jim Collins for his contribution to the team and we want to wish him luck when he leaves Pacific.

Coach Rowland believes that the team made less errors than last year and has showed improvement in every game. Skip believes that the team will be far better next year.

The heavy hitters on this year's team were Rueben Guterrez with .312 and Don Bossert with .320. Ed Sowash hit two home runs to hold the record for home runs this season. Del Whittier wound up with the most games won on the mound with three; Hal Barnett captured two and Wayne Seale, one.

Art Mesistrano

Artie, as he is called by the students, was born in Brooklyn, New York on September 22, 1936. He attended Lafayette High School where he was president of his graduating class. While in high school, Artie was picked for all of the Metropolitan teams in football. After graduating, Artie went to Stockton Junior College on a football scholarship where he made the All-American Junior College team and the All Big 8 Conference team as a right tackle.

Artie transferred to the College of the Pacific in February and is now a high freshman. As a 5' 9" 240 lb. guard, Artie is expected to play a lot of football next year and in the years to follow. He intends to play professional football after he graduates from college if he feels he is good enough.

Artie is majoring in Speech Therapy and hopes to receive his credentials to practice while at the College of the Pacific.

While at Stockton College, Artie became interested in drama and was in two plays, *Winterset* and *Mrs. McThing*. He was in the recent production of the musical *One Thing After Another*, and will be the hairy ape in Eugene O'Neill's *Hairy Ape*.

BOB BADGER

Standing six feet tall, and weighing one hundred and sixty pounds is Robert Badger. Bob was born in Woodland, California, and was an outstanding athlete at Woodland High School.

In high school Bob lettered four years in Basketball, Track, and Golf, and one year in Football. He was voted the Most Valuable Player his senior year in basketball. He was Commissioner of Boys Athletics in high school and was also President of his Sophomore class.

Bob went to Menlo Junior College for 2 years. While he was there he was All-Conference guard on a championship basketball team, lettered on a championship track team, and also lettered on a championship golf team. Besides his athletic activities he was Business Manager of the student body.

In 1954, Bob came to the College of Pacific on a Basketball scholarship and has done very well. Bob has also been the Tiger's top golf player for the past two years. He was a medalist in conference play last year and is leading the team again this year. He has been playing golf for seven years. Among his many accomplishments in 1952 and 1954 Bob won the Woodland Golf Club Championship.

Bob is a Physical Education major at Pacific and he plans to go into the coaching field. Aside from athletic ability, Bob is a pretty fair singer. An Irish Tenor, he has sung with several small dance bands. As you can see, Bob is very versatile.

Thinclads Garner Best Record In Four Years

Coach Charles Richesin finished his track season in a blaze of glory by defeating the University of San Francisco Dons by a score of 81-49. This of course is only half the story because the Tigers only took six men with them.

Willey Schoellerman, who competed in 6 events and placed in all of them, scored 15 points; Les Dabritz undertook four events and collected 14 points; Jack Marden and Clancey Irvin entered five events and both got 13 points; Tom Perry ran in three events and collected 13 points and Gene Campbell went in four events and picked up 12 points.

A look over the year's track record finds the Tigers way ahead of the past year's statistics. This year the mighty thinclads won eight and lost one. The Pacific Tigers defeated San Francisco State by a score of 76-55, Idaho State 77-54, Cal-Aggies 86-44, Cal Poly 74-56, Chico 75-56, Sacramento State 86-44, Mather Air Force 79-51, and the USF Dons while Pomona-Claremont beat the Tigers 80-51.

Some of the individual best times this year for Bengal track-ers are as follows:

440—Schoellerman (time) 50.6; 2-mile—Curtis 9:52; 880—Marden 1:56; Mile—Marden 4:25.8; HH—Perry 15.1; LH—Perry 24.0; Discus—Daniels 140' 6"; HJ—Carroll 5' 11"; 100—Perry 10.1; PV—Daniels 12' 2"; Shotput—Lane 50' 3"; BJ—Campbell 22' 1"; Javelin—Lane 171' 3"; 220—Irvin 22.5; Relay—Schoellerman, Marden, Curtis, Irving. 3:27.0.

Scrimmage On Tap For Tiger Gridders Green Being Pushed At Fullback

Coach Moose Meyers will send his '56 Pac-Cat gridgers through their first full flight scrimmage tomorrow afternoon from 12 noon until the coaches are satisfied with the performance. It will mark the half-way point of spring training, and by now fans should get a fair indication of what to expect next fall.

Backfield coach Skip Rowland gave his backs some contact last week, but the major concentration was on learning the system. The same held true for the boys up front, as John Nikceovich's linemen spent the first five days on their hip pads giving full attention to lectures.

Nikceovich molded together a tentative first string from last year's team. Farrell Funston and Ken Cornell were at the ends; Bill Striegel and John Nisby were at tackle spots; Galen Laack and Bob Lee were the guards; and Jack O'Rourke was at center.

Skip Rowland had Junior Reynosa at quarterback, Tom Green at full, and Tom Perry and Gene Campbell at the halves. As was previously mentioned, these positions are tentative, and all eleven men will be put to the test before the spring season is over.

A top battle is shaping up at fullback, with Don Bossert, John Williams, and Ken Uselton giving veteran Green a heated tussle. Bossert is the only veteran from last year's team, as Green sat out the year with injuries, Williams was a frosh and Uselton was going to school elsewhere.

Red-shirts Lee Allerdice and Joe Golenor are competing against another injury case in

Perry for the blocking back position. Gene Peterson, Jack Larsheld, and Roger Metoyer are Campbell's big worry at left half, and any one of them is capable of rising to the top of the heap.

The big problem for Nikceovich is trying to find new men to fill in the vacancies left in last year's "Super-Six" line.

Golfers Back In Action

The College of Pacific Golf Team will tangle with San Jose State and The University of San Francisco tomorrow at Sharpes Park in San Francisco.

Coach Van Sweet is very optimistic on the outcome of the match for the Tigers. "I don't see how we can take a point." Both San Jose and USF are very strong teams.

Earlier this season USF defeated the Tigers 15 to 3, and San Jose beat the Tiger golfers 16 to 2. So you can see that this match will be a tough one for the Bengals.

Stalwart, Don Hall, of the Tiger team will be unable to compete in this match tomorrow as he must play in a volleyball tourney. This leaves a serious gap in the team which will be hard to fill.

APRIL SHOWERS?

"April showers bring May flowers..." That may be true on other campuses, but here at Pacific, South Hall has another version of this. It seems to be quite the thing to fill coke bottles with water and dump the contents on top of someone passing underneath the transoms. If the South Hall girls do this to other girls, what must they do to some poor, unsuspecting male? My advice to the latter is: "Go West, young man!"

LAZY BONES

ARE CATERED TO

Due to the understanding nature of our dietician, Miss Knaupf many students are now able to sleep an extra fifteen minutes and still eat. Breakfast is now being served until 8:30 to allow those lucky, lucky students who have 9:00 classes can sleep a little later and still be able to eat before going to class. Let's all co-operate and arrive by 8:20 instead of waiting until the last minute. Thank you, Miss Knaupf.

FREE MILKSHAKES

Two freshman students, Kathy Hellman and Herb Steiner, have discovered how to secure free milkshakes. These two "brains" got together and decided to incapacitate themselves, one broke his leg and the other got mono-nucleosis in order to "land" in the infirmary. It seems that the infirmary gives all patients free milkshakes! Chocolate or vanilla, anyone?

SOMEBODY GOOFED!

A pretty co-ed went to chapel last Sunday and, upon arriving there, she promptly kicked off her shoes, as her metacarpals were bothering her. On leaving the chapel, the members and PARENTS stopped to stare. Yes, like all girls, she had forgotten her shoes. Needless to say this co-ed is a member of the freshman class and has been subjected to such comments as: "What is this younger generation coming to?"

PINNING

There's a continual "buzz" of chatter speculating on who will be the next couple to become engaged or pinned. The latest pinning is that of Jean Slayton and Richard Gerow.

ON THE AIR

By LIZ LASKIN

Alpha Epsilon Rho, national honorary radio and television fraternity, welcomed three new members into the organization at a meeting this weekend. Jim Crockett, Lisa Greenwood, and Mike Mathis were initiated. The fraternity put them to work on an important project immediately; that of taking charge of KCVN's huge record auction on Thursday, May 17th from 11 a.m. till 5 p.m. All 78's will be open for bids at that time.

Elections were also held at the meeting and at the top of the ballot was the position of station manager. Mike O'Connor, who has been very successful and constructive this semester, was re-elected to serve as station manager for the fall semester.

Fraternity officers were then elected and those to be congratulated are as follows: President, Chuck Speake; vice-president, Doni Capillo; secretary, Lisa Greenwood; treasurer, Jim Crockett; historian, Ben Randall, parliamentarian, Mike O'Connor.

Class Discusses Campus Cheating

Recently two members of Spurs led a discussion on the problem of cheating at Pacific in Dr. Bruner's social problems class. The following points were brought out:

1. The amount of cheating in a class depends, to a great extent, on the attitude of the professor, and how he conducts the class.
2. Proctors are not a good idea.
3. Alternate tests are often a challenge to students to cheat.
4. The campus attitude toward

lated are as follows: President, Chuck Speake; vice-president, Doni Capillo; secretary, Lisa Greenwood; treasurer, Jim Crockett; historian, Ben Randall, parliamentarian, Mike O'Connor.

cheating often determines whether or not one will cheat.

5. An honor system should be tried at Pacific. The system would have to begin slowly on an individual classroom basis.

5. The pencil-tapping method of preventing cheating was voted to be used by the class. This method involves the tapping of a pencil on the desk when one sees someone cheating during an examination.

7. Cheating could be reduced by having essay-type questions on exams, and by having the professor show confidence in the honor system by leaving the room during an exam.

8. The cheating problem at Pacific is not a large or growing one, but steps should be taken to reduce the existing methods of cheating.

At the end of the discussion Dr. Bruner's class voted to use the honor system on their next exam.

What young people are doing at General Electric

Young ad man handles G-E jet and rocket engine advertising

The first jet engine ever to power an American plane was built by General Electric in 1942. Since 1948, G.E. has supplied the Air Force with over 30,000 of its famous J47 jet engines. And General Electric's jet experience soon will be paying additional new dividends to national defense. Its J79—called the most advanced engine of its type in the world—will soon enter production.

The man responsible for reporting G.E.'s jet and rocket engine progress to its customers and the public is Roy O. Stratton, Jr., 27-year-old account supervisor in the Company's Apparatus Advertising and Sales Promotion Department.

Stratton's Work Important, Interesting

Stratton supervises the planning and preparation of direct-mail promotion, brochures, films and presentations, as well as public-informational space advertisements for *Time*, *U.S. News & World Report*, *Business Week*, *Aviation Week*, and other magazines.

Considerable personal contact with the Armed Services makes Stratton's job an interesting one. Last year he traveled over 60,000 miles, visiting many of the country's Air Force bases to gather necessary information and pictures.

25,000 College Graduates at General Electric

When Stratton came to General Electric in 1952, he already knew the kind of work he wanted to do. Like each of our 25,000 college graduates, he is being given the chance to grow and realize his full potential. For General Electric has long believed this: when fresh young minds are given the freedom to develop, everybody benefits—the individual, the Company, and the country.
